DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification,

Paragraph [0005], line 6 replace the term "On" with -- on --,

Paragraph [0043], line 13 replace the term "Moreover", with -- moreover --.

In the claims,

In each of claims 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21 and 22, in the preamble at line 1, replace "as in claim 1, 4 or 9" with the recitation -- according to claims 1, 4 or 9 --.

Response to Amendment

The Amendment, filed on June 23, 2005, has been entered and acknowledged by the Examiner.

Cancellation of claims 2-3, 5-8 and 10-13 has been entered.

Claims 1, 4, 9 and 14-22 are pending in the instant application.

Allowable Subject Matter

Claims 1, 4, 9 and 14-22 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 1, and specifically comprising the limitation of a total of N multiple number of glass tubes, each of different caliber and arranged in a coaxial structure within each other, an isolator near a middle section of an innermost first glass tube and extending to an (N - 1)th glass tube, plural-numbered through-holes near both sides of the isolator at odd-numbered glass tubes starting from the innermost first glass tube to the (N-1)th glass tube, and around ends of even-numbered glass tubes starting from an inner second glass tube to an (N - 2)th glass tube.

Regarding claim 4, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 4, and specifically comprising the limitation of a total of N multiple number of glass tubes, each of different caliber and arranged in a coaxial structure within each other; an isolator near a middle section of an innermost first glass tube and extending to an (N-1)th glass tube, plural-numbered through-holes near both sides of the isolator at odd-numbered glass tubes starting from the innermost first glass tube to the (N-2)th glass tube, and around ends of the even-numbered glass tubes starting from an inner second glass tube to an (N-1)th glass tube.

Regarding claim 9, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 9, and specifically comprising the limitation of an isolator near a middle section of an inner second glass tube and extending to an (N- 1)th glass tube, plural-numbered through-holes near both sides of the isolator at odd-numbered glass tubes starting from the inner third glass tube to the (N-2)th glass tube, and around ends of even- numbered glass tubes starting from an inner second glass tube to an (N-1)th glass tube.

Art Unit: 2879

Regarding claims 14-22, claims 14-22 are allowable for the reasons given in claims 1, 4 or 9 because of their dependency status from claims 1, 4 or 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
